Further Your Career with Setanta College

At Setanta, our mission is to deliver industry-defining education, application and insight to communities at a local and global level. We deliver a range of internationally renowned higher education programmes in human development and performance.

With flexible learning options available, we provide the opportunity for anyone to further their education to suit their own schedule - including elite athlete, existing coaches and more.

Delivery Method

Lectures are delivered online through Setanta's interactive online learning platform.

Students also attend practical workshops at different intervals depending on their course of study.

Accreditations

Our undergraduate programmes are accredited by Quality and Qualifications Ireland (QQI) and through the European Union via the European Credit Transfer Accumulation System (ECTS)

Our Masters programmes take their accreditation from the Middle States Commission on Higher Education.

Your Commitment

Our courses are designed to suit busy athletes and coaches. The recommended time commitment for our courses is on average about 4 - 5 hours per week. This incorporates viewing the lectures and doing additional reading and study.

By choosing Setanta College, you will gain a world-leading strength & conditioning and sports performance education recognised and accredited by international bodies including the National Strength and Conditioning Association (NSCA) and World Rugby.

To date, over 60,000 students have graduated from Setanta College and alumni operate at the highest level with some of the largest sport, fitness and wellness organisations in the world.
